WORKSHOP 03-11:
“EDI and Cargo Transport Flows”

Dear Partners:

Following is a brief description of what you need to know having arrived in an Italian airport.

Currency

One of the first things to do right after you have landed successfully in an Italian airport and gone through the passport control is getting some cash money in local currency (EUR). You can get the approximate exchange rate following this link <http://www.oanda.com/convert/classic>

We recommend exchanging some already at the airport because public transports accept only cash (EUR). Banks and post offices are the most reliable places to change money and generally offer the best rates; shop around for the lowest commission deals. Credit cards are widely accepted in Italy and the exchange rate is usually better than for cash or travellers cheques. If you happen to arrive late in the afternoon banks are closed. Apart from that, payment cards are accepted widely in hotels, stores, restaurants.

Transportation

By train:

Ravenna has direct and frequent rail connections to Bologna, Ferrara and Rimini. For more information following this link <http://www.trenitalia.com/en/index.html>
The meeting venue is 10-minute walk away from the railway station.

By plane:

[Forli airport](#) (30 km from the Ravenna)

[Rimini airport](#) (60 km from Ravenna)

[Bologna airport](#) (80 km from Ravenna)

How to move in Ravenna:

The best way to move in Ravenna city centre is walking.

To find your way and distance following this link

Weather conditions

Ravenna city centre is at its best in spring (April-May). During this season, the scenery is beautiful, the temperatures are pleasant and there are relatively few crowds.

Wear spring clothing and a sweater at night but also remember your raincoat and umbrella. The temperature in April is around +19 C in the late morning.
